Thanks for checking out the hyperpaper planner! Use this 2-month demo on your own tablet to see if it's a good fit for you. This planner features:

1. The most thoughtful and convenient navigation system out there
2. A design specifically tailored for e-Ink tablets
3. Absurd levels of customizability. The full version lets you include only the pages and features that are valuable to you.

COLLECTIONS

This page you're looking at doesn't exist in the full planner- it's only included in this demo file to give you a tour. It's also an example of a single-page *collection*.

A collection is simply a group of pages. Each collection is linked in the left sidebar. This puts all of the planner's content at your fingertips, no matter which page you're on.

A unique feature of this planner are its *monthly and weekly collections*. The pages in these collections are linked from all of the relevant date pages, so you can always easily jump to the pages that are directly relevant to the current point in time. The **Habits** and **Review** pages are examples in this demo, but you can add or remove whichever ones you like.

NAVIGATION TIPS

1. The h logo in the top left always takes you to the index page
2. The sidebar gives you quick access to collections
3. Monthly/weekly pages related to the current page are linked at the top right

THE FULL VERSION

I hope this demo gives you a sense of what this planner can do for you. With the full year planner, you can build your own organizational system with custom page layouts and up to a dozen collections, with 1-200 pages each.
