Thanks for checking out the hyperpaper planner! Use this 2-month demo on your own tablet to see if it's a good fit for you. This planner features:

1. A design tailored to e-Ink tablets (but it'll work on any pdf-supporting device)
2. The most thoughtful, consistent, and convenient navigation system out there
3. Absurd levels of customizability. The full version lets you include only the pages and features that are valuable to you.

## COLLECTIONS

This page you're looking at doesn't exist in the full planner- it's only included in this demo file to give you a tour. It's also an example of a single-page *collection*.

A collection is simply a group of pages, with a common template. Each collection is linked in the left sidebar, putting all of the planner's content at your fingertips, no matter which page you're on.

A unique feature of this planner are its *monthly and weekly collections*. The pages in these collections are linked at the top of all relevant date pages, so you can always easily jump to the pages that are directly relevant to the current point in time. The **Habits, Planning,** and **Review** pages are examples in this demo, but you can add or remove whichever ones you like.

## NAVIGATION TIPS

1. The h logo in the top left always takes you to the index page
2. The sidebar gives you quick access to collections
3. Monthly/weekly pages related to the current page are linked at the top right

## THE FULL VERSION

With the full year planner, you can build your own organizational system with custom page layouts and up to a dozen collections, with 1-200 pages each.
